

Benefit Change for IRS Qualified Life Event

Example: marital change, birth/adoption of child, spouse loss/gained coverage, or had a death of a dependent within the last 30 days

You are able to make changes outside annual benefit enrollment if you had an IRS qualified life event. Examples of this are a marital change, birth/adoption of child, spouse/dependent lost/gained coverage, or had a death of a dependent within the last 30 days

The benefit call center is able to submit this for you. They can be reached at: 866-831-8002. Please make sure everything is submitted within 30 days of the life event happening. In order to submit we do need documentation [uploaded into UKG](#), fax to 402-829-2963 or email MyHR@Immanuel.com

If you are doing your enrollment on your own please follow these instructions:

Step 1: Login to [UKG](#) ([password assistance](#))

Step 2: Under Myself scroll down and click on “Benefit Changes (Life Events)” then “202X Life Events for Self and Dependents”

Step 3: The date of “When did this happen?” is the date of when you need coverage to start (ie date child was born, date loss/gained coverage...). If the life event is future dated, please put today’s date and that will make your coverage effective date the 1st of the next month. The documentation you upload later should support this date.
